OBJECTIVE

Innovative Frontend Developer with 2.5 years of experience in building dynamic and responsive web applications. Proficient in modern frameworks like React.js, Angular, and React Native, with expertise in JavaScript, TypeScript, Redux, and Material UI. Passionate about crafting intuitive UIs, optimizing frontend performance, and collaborating in Agile environments. Seeking an opportunity to leverage my expertise at micro1 and contribute to innovative web solutions.

TECHNICAL SKILLS

- Frontend Technologies: React.js, Angular, JavaScript, TypeScript, HTML5, CSS3, AJAX
- UI/UX & Styling: Responsive Design, Material UI, SCSS, Bootstrap, Tailwind CSS, Figma
- State Management & Tools: Redux, Web Services, JSON, Git

PROFESSIONAL EXPERIENCE

Frontend Developer

Pratian Technologies | Bengaluru, India (06/2022 - 12/2024)

- Developed high-quality frontend components for web applications using React.js and Angular.
- Optimized website features, increasing functionality and user satisfaction by 20%.
- Led front-end initiatives, enhancing user experience by 30% through intuitive design improvements.
- Ensured cross-browser compatibility and implemented responsive, mobile-first designs.
- Collaborated with Agile teams, improving project efficiency by 25% through sprint planning and daily stand-ups.
- Utilized industry best practices and design patterns to maintain high code quality.
- Successfully delivered scalable and maintainable frontend solutions for enterprise-level projects.

EDUCATION

Bachelor of Technology (B.Tech) - Electrical & Electronics Engineering

DRIEMS Autonomous College, Cuttack, Odisha (2017 - 2021)

CGPA: 8.01

PROJECTS

Job Check (12/2022 - 12/2024)

- Engineered a centralized super admin module for seamless job management.

- Designed and developed a platform fostering inclusivity with diverse job opportunities.

- Implemented reusable code for efficiency and scalability.

- Ensured an error-free front-end for seamless user navigation.

Responsive Web Application for E-Commerce

- Developed an interactive and responsive e-commerce platform using React.js and Material UI.

- Implemented Redux for state management and ensured seamless UI/UX experience.

- Optimized performance by reducing API call latency and improving page load speed.

- Ensured cross-browser compatibility and adherence to mobile-first design principles.

Company Dashboard System

- Built an Angular-based dashboard to track company performance and analytics.

- Designed custom charts and graphs for better data visualization.

- Ensured mobile responsiveness, accessibility, and cross-browser compatibility.

- Integrated version control (Git) for efficient collaboration and code management.

ACHIEVEMENTS

- Recognized with the Innovative Frontend Developer Award for creativity and excellence in web development.
